Amendment and Response Attorney Docket No.: DID1046US

Applicants: Edgardo Costa Maianti et al.

Serial No.: 10/804,583

IN THE CLAIMS:

 (Currently Amended) An integrated device for oxygenating and filtering blood flowing through an extracorporeal blood circuit comprising:

a bubble trap having an inlet for receiving venous blood and an outlet for supplying venous blood;

a blood pump having an inlet connected to receive <u>venous</u> blood from the outlet of the blood reservoir and an outlet;

a heat exchanger having a blood inlet connected to receive venous blood from the outlet of the pump and a blood outlet for supplying temperature controlled venous blood:

an oxygenator having an inlet connected to receive venous blood from the outlet of the heat exchanger and an outlet for supplying oxygenated blood;

an arterial blood filter having an inlet connected to receive oxygenated blood from the outlet of the oxygenator and an outlet for supplying filtered oxygenated blood; and

a monolithic housing including a first portion for defining the bubble trap, a second portion for defining the blood pump, a third portion for defining the heat exchanger, a fourth portion for defining the oxygenator and a fifth portion for defining the arterial blood filter.

- 2. (Original) The integrated device of claim 1 wherein the blood pump comprises a centrifugal pump.
- (Original) The integrated device of claim 2 wherein the centrifugal pump has an axis and wherein the centrifugal pump is positioned within the monolithic housing such that the axis of the centrifugal pump is horizontal.
